### TORBAY BARIATRIC PERCHING STOOL

The Torbay range of perching stools is modelled on our tried and tested standard Malling range with the added advantage of being specifically designed for bariatric use. The seat is generously padded for comfort.

- 248kg (39 stone) weight limit
- Adjustable height
- Wide seat frame
- Large footprint for stability
- V-shaped front brace for safety and strength

### SUFFOLK

The Suffolk bariatric commode completes the trio of traditional styled bariatric commodes. The Suffolk is not only adjustable in height, but also has the added advantage of independently detachable arms. The detachable arms give the user the ability to transfer to and from the seat sideways in safety. The commode features fold away transfer wheels as standard, which are a real asset when transporting the commode

248kg (39 stone) weight limit

### CDS 4750

A shower chair / commode with anti-microbial coating and components which prevents the growth of MRSA, Listeria, E-Coli and Salmonella. It is available with several accessories consisting of toilet tissue holder, transfer board, oxygen bottle holder, IV pole, rear basket, hand sanitizer holders and hand wipe holders which are coated with the same anti-microbial material as the frame.
