

## Baby Changing

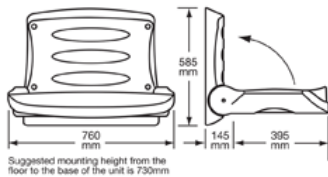

### MAGRINI HORIZONTAL BABY CHANGING UNIT (MH42)

Magrini's wall-mounted MH42 baby changing unit has a contoured, contemporary design and is available in a choice of colours - White Fleck or Oatmeal. The unique hinge construction eliminates finger traps, even on opening and closing. The hinge rotates within the enclosed moulding eliminating exposure to moving parts.

The MH42 fully complies with the new standard BS EN 12221:2008. In addition it also conforms to the more stringent resistance and endurance requirements for use in the public domain. An 80kg load is applied to the open changing surface for 1 hour and a 15kg force is applied 7000 times.

Extra-deep, all-round barriers eliminate the need for safety straps.

### VERTICAL BABY CHANGING UNIT (MV64)

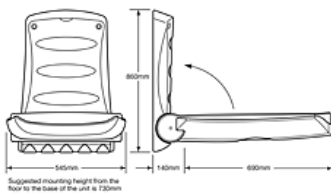

The new MV64 wall-mounted baby changing unit is perfect for areas where space is limited; providing stylish baby changing facilities in even the smallest of washrooms.

The unique hinge construction eliminates finger traps, even on opening and closing. The hinge rotates within the enclosed moulding eliminating exposure to moving parts.

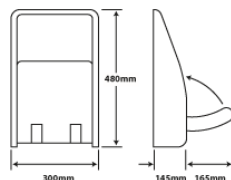

The MV64 fully complies with the new standard BS EN 12221:2008. In addition it also conforms to the more stringent resistance and endurance requirements for use in the public domain. An 80kg load is applied to the open changing surface for 1 hour and a 15kg force is applied 7000 times.

Extra-deep, all-round barriers eliminate the need for safety straps.

Available in a choice of colours - White Fleck or Oatmeal.

### STAY SAFE BABY SEAT (KBPS)

Gives parents a place to keep their babies with them, safely, inside a changing room or toilet. It eliminates the uncertainty of leaving a baby unattended outside or on the floor. Ideal for wet floor areas in swimming pool changing rooms.

Wall mounted; the seat folds away when not in use. Occupies minimal wall space. Strong safety straps with snap-lock fitting.

The Stay-Safe seat is designed to withstand a static load of 25Kg. The unit is not suitable for domestic use.
