

EASY ACCESS TRAYS

Our Easy Access trays are available in a variety of sizes and suitable for all floor types. Our non-handed 40mm shower trays give versatility an easy installation. They can either be recessed for level access or surface mounted as a step-in version. Each tray has sufficient fall to the waste to ensure that water runs away quickly. All trays are non-handed for ease of use, however if you are looking for handed trays we have over 20 styles and sizes just ring us and we will be happy to assist.

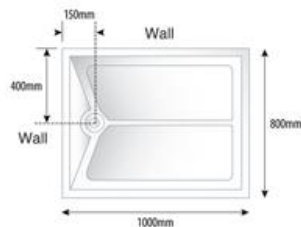

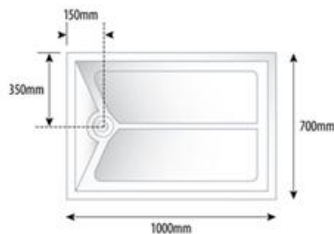

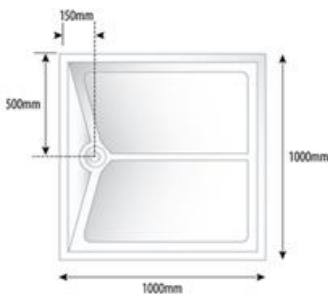

All of our Easy Access Shower Trays are manufactured using sustainable practices. They are all manufactured in the UK and Ireland which limits our carbon emissions. The Trays come with a trap, fitting instructions, warranty and complete peace of mind that they have been tested to a very high degree following British safety standards.
